

Department of Commerce
Manipal University, Manipal

PLACEMENTS & INTERNSHIPS
2015-16

Department of Commerce of Manipal University has a robust placement team that has consistently been successful in helping with both internships and placements. Internships and placements are seriously considered and encouraged and this allows the students to put to perspective their goals much early during their studies. Most of our students were successful to showcase high level of understanding and competencies that paved their way to turning around their respective internship to a full-time job.

Our cell has expanded along with the department and organizations from various sectors like BFSI, Retail, IT, Market Research, Tourism and Hospitality *etc.* have taken our students on board. The placement cell is not only involved in getting prospective internships/ placements, but also grooming the candidates to face the world through training programs and activity based workshops.

Below given is the list of a few of our students who got placed through our placement Cell
