Feedback about the course presently completed at MSAP (50 words)	Kindly give your testimonial for your Alma Mater (50 words)
good  it was highly knowledgeable but could be improved in the area of draping and PMSP	good A good platform for creative minds and would always be a proud alumnus of MSAP One of the best quality of architecture provided in India.
It was great learning at msap, faculty is the main strength and pillar of our college, ofcourse the diversity in each and every bit makes it one of the best college. Thank each and every bit of hands helped in this process.	It was whole new world of learnings & experiences
It was great learning in this prestigious institution and the exposure we got from our college was amazing. The faculty team we got are very supportive and we are blessed to have them here Thanking you for the best days we have got here.	It was great learning in this prestigious institution.
HAD A GOOD EXPERENCE AT MSAP.  The Backelor of Architecture course at FOA Manipal has a perfect balance of curriculum required to shape a budding architect. It lays a strong cloudation which helps be student on emerge stronger than the rest of the competition. The curriculum helps build not only a good architect	Such outstanding diversity in people of Manipal university. Tunks you for the amazing days.  TUNKS YOU FOR MANDON ME, A PART OF FOA.  The course at FOA Manipal has shaped me into the person I am today, it has made in a storing Architect and a better human than I was before. I have learn the skill of beam building, managing and working from the eleachers and opportunities provided at FOA, Manipal.
but also a good human. The course has helped me in understanding and being able to work with interiors at a vast scale. The faculty has been very helpful during my 4 years over here.	leamt the skill of team building, managing and working from the teachers and opportunities provided at FOA, Manipal.  My time at FOA has been memorable. The lecturers who have taught me have been the backbone to my still growing progress.
Well designed course but working hours of students should include personality development like sports and other activities too.  A course that hits the necessary assects of the wast subject of architecture. Would have liked to have architecture connections as a necessary.	Good college environment which encourages students in different fields by providing helping hands by professional and also facilities for students to flourish in their future.
recedit. Definitely a fun experience.  good academic course as part time	Good amentiles. A good curriculum. A good recognition in the field. A good experience on the whole.  As I m presently working as Assistant professor, and also joined in masters for advanced design, its very helpful to carry at same time and thankful for opportunity.
suitable for all those who are working and want to study along the practice.	Marripal has given me lot of experience in terms of education, culture and team spirit. Infrastructure of campus help all of us to interact and work for bet
Very good experience, good inflastructure, good exposure.  Being a student of Executive M.Arch, it was very benfecial for me to continue my teaching profession and at the same time concentrate on my	Finally done with the course. Feeling hatcov.  I joined the college in 2011 for my bachelors and made up my mind to continue at the same place for my further studies. I was impressed by the institution is dedication towards students in shaping the future.
master studies on the weekends.	I am grateful to all the teachers and their ability to support me in developing my skills, was completely satisfied with the kind of focus on the research, the great knowledge basis for the future growth. I confluent to serve my institution as a faculty, with the intellinent of serving the society as well a great university like MAHE.
The course covers a wholesome range of technical, practical and conceptual aspects of the field. Has a higher impact on the understanding of the person and enables them to be more susceptible to further knowledge gaining. NA	NA FOA has provided us with a very strong base not exactly in architecture. For me personally it was all about the confidence and go getter attitude that it
Good	provided me with FOA made me realise anything can be achieved and to always maintain a healthy competition and not to settle for anything small Architecture wise we did have a very few facultly dedicated and motivating us throughout and the ones who were not taught us that We can do it ourselves. Every moment being FOA was a house life lesson.
I feel super proud to be part of MSAP, whatever we have learned from fashion designing department its really helpful in our carrier, and I am totally satisfied from the course what I have finished here surely going to recommend other people as well.  Had a creat excertience.	na Architecture can be daunting but that is also the exciting part about the subject.
Learned a lot from this college and place To talk about the course, we were given the freedom to imagine as well as design and come to a final phase of the project which was discussed mainly on the aspects of structure and functionality.	My experience in this college was amazing
I hink if equal weightage can be given to design as well as structures it will benefit the students more and would be a better and a more wholesome course all together.  It was a great experience and the course was serioused to the core.  It was a great experience and the course was serioused to the core.  The life, culture, exclusion and the practical knowledge gained at MSAP is and always will help me in establishing myself in whichever field I	It was a true pleasure experiencing all the love and respect from the faculty and students. I wish all the very best to my alma mater.
of the line, counter, occurred and any explacit defence between a student of MSPA and any other cologies then it conseques under the good to have seen as other and state to communication and presentiation skills. The distribution of topics and the way they were arranged throughout the cours, now seems to be really good. Also, arranging all the sets curricular activities gave me immense confidence which still helps me in hading any given task or event.	The values learnt and the character formed at MSAP, just after ending the school and leaving home, helped me in being more open minded and widene my perspective to life.
Theoretically we were taught quite a lot, though i believe there should be more stress on practical parts as well as more exposure is required w.r.t. competitions involving universities from other cities in order to keep up with them.	There are many educational institute but none as diverse as Manipal University. When I came to Manipal I was just your average kid who used to shiver when asked to get up on stage or to present himself infront of a large group. Manipal has made me more confident and has made me a better version of myself.
The course was very well organised and planned. Each student gets individual attention.  I think software learning programs can be enhanced. Apart from that, the course is apt for students wanting to pursue Architecture.	MSAP is where students are encouraged and motivated to acquire knowledge. It is a complete plus for a student's career in the field.
The course was good. All mite subjects were great. All the subjects are been applied.  Good Course I am very proute to have studied under this prestigious institution where I have experienced and gained a lot of knowledge in the course period.  Excellent infrastructure and had an oreat excosure.	It was a true pleasure experiencing all the love and respect from the faculty and student. I wish aima the very best to my alma mater.
The course though being a executive part time program was very intense and enriching and has increased our acumen and expertise in gaining more knowledge in Architecture.	I am a pure Manipalite, I will always vouch for and support my Institution in all possible ways.
The course was very well structured from the first year to the fifth year. the units that I took encouraged me to broaden my perspective about architecture as a whole. We had been learning an architectural theory subject in which we learn how every space can be defined and how to develop the structural system on a broader scale. A good course, gloud to have chosen and completed it. Saw a clear difference against students from colleges in Bangatore. Have gotten	Throughout my 5 years of architecture at Manipal school of architecture and planning. I had countless opportunities to develop design oriented thinking, analytical skills, leadership and proactive thinking through various programs and events.
opportunities to explore more through case studies. Have been given more subject and elective options. More attention to Revit and photoshop would be great.  The course structure had adequately challenged us in all aspects of architectural education and provided a holistic approach to the subject.	Manipal University has been a great experience and an unforgettable one. It has taught me to get along with people from all parts of the world. It provide great opportunities apart from good education. Love the hostel experience and campus life.
One aspect I would have liked to explore more would be the practical application of subjects taught in class and exploration in terms of Materials and building technologies and costing currently available in the market. Also learning about construction details that are applicable at a practical level.	Of all the things I learnt during my course at MSAP my biggest takenway was the Holistic nature of my education, I not only learnt about all Architecture and Construction, but also developed my people skills, communication methods and networking, which has helped me greatly in developing my Career. MSAP has olawed a vital role in developing me as a person and as a desirrer. I have been able to utilize the skills I have learnt here for many different.
I have collectivity enjoyed my 5 years with MSAP. Improved as an architect and generally as a person.  The course at Manipal allows students to explore different construction systems and techniques (sustainable, pre-cast, etc.) at a detailed level which makes our students start out in comparison.	MAAP has played a visit role in developing me as a person and as a designer. I have been able to utilize the skills i have learnt here for many different uses as a flentionar, have been reserved for the world oxidate and it is due from year-descriptions in MASP. The time I have sperr in Manipal has definitely helped shape the person I am today. Along with the learnings from the course, the college has enhanced my people skills and confidence.
There should be emphasis on the use of software early on in the course.  Good faculty and consider transfer credit system  If was very fulfilling and an holistic experience.	high quality education Keep up the good work.
good qualify of education and good experience. This course helped become a strong Architect and a better human being overall. The course really gives a better vision to look at the design field we are in. But it requires a lot of software, sketching skills and mental ability. The course really gives a better vision to look at the design field we are in. But it requires a lot of software, sketching skills and mental ability.  The course really gives a better vision to look at the design field we are of redesigned. So It will be need the heldfull law can work on it smore.	Best things that has happened to me is the alliance. Experience teaching quality and high quality of education.  This course helped become a strong Architect and a better human being overall.  Very good
to get through any obstacles when you start working as a professional. So It will be really helpful if we can work on it more.  Good.  This course behave we have see a better Archiver!	It was a great experience studying Masters of Urban design in Faculty of Architecture. Helped me in widening the horizon of knowledge, improvement in public seeaking and understanding the importance of learn work.
