ENT & Ophthalmology SGTs would be held at the beginning of the block 4. These classes are revision classes and hence would be held only during the first four weeks of the block. After that, the students would be free.

There could be minor changes in the detailed timetable especially during the end/beginning of the block to make up for scheduled holidays.

The lectures of the AETCOM and Pandemic module will be taken together for the entire batch like the lecture classes of other subjects.

#The batch would be further divided into subgroups so that each subgroup has about 20-25 students each.

***Division of 247 students into batches for Small Group Teaching**

- 247 students will be divided into 5 groups (A to E) for the SGT
- Each group further divided into 2 subgroups to ensure that the maximum number of students in a group would be 25.

How to read the detailed timetable?

The timetable makes use of colours to indicate the department and systems. It also uses colour coding of the boxes to indicate integration.

The colours used for various systems are as below:

Colour codes for system
1. General
2. Cardiovascular system
3. Digestive system and Excretory system (includes Hepatobiliary)
4. Endocrine system
5. Sensory system (includes skin, eyes, & ears)
6. Immune system, lymphatic system & Haematology
7. Musculo-skeletal system
8. Nervous system
9. Renal system and Urinary system
10. Reproductive system
11. Respiratory system

P.S. General is used in case the topic does not fit into any system or involves multiple systems.

The colours used for fonts of various departments are as below:

Colour Codes for different departments
Medicine
Surgery
OBG
Paediatrics
Orthopaedics
Ophthalmology
Otorhinolaryngology

The box of the cells containing classes/sessions having integration have been highlighted as below:

Border shading for different types of integration

Nesting

Correlation

In addition to this, there is text in the box indicating the level of integration and department(s).

Colour codes have also been used to highlight the pandemic module, AETCOM module & the dedicated time provided for Continuous/formative assessment, Simulation, Research & Sports & Extracurricular activities. The codes are explained below.
