Department of Urology

Department of Urology

The Department of Urology at Kasturba Hospital offers full-fledged urology care to patients along the Konkan Coast from Calicut to Goa. The department provides comprehensive treatment for common urological problems like prostate diseases, urinary stones, infections, malignancies, and strictures of the urethra.

The department is widely recognized and specializes in Radical Cancer Surgeries such as Radical Nephrectomy, Radical Cystectomy and Retro peritoneal lymphadenectomy. Different types of complex urinary diversions including continent pouches are also performed here.

The department also has facilities for the diagnosis and treatment of all problems in Paediatric Urology. The range of paediatric endoscopes makes endo-urological procedures feasible in children. The Department performs complex surgical procedures such as Intra renal Surgery, Nephron-sparing Surgery for Renal cell Carcinoma and Anatomic Nephrolithotomy exploiting hypothermia and regional vascular control. Ablative & Reconstructive Lap urology has already started.

Urological Procedures

- . Endo-urological Procedures
- . Percutaneous Nephrolithotomy (PCNL)
- . Ureteroendoscopy (URS)
- . Renal Transplantation
- . Urodynamic Study
- . Female Urology
- . Uro Oncology
- . Paediatric Oncology

- . Transurethral Resection of Prostate
- . Laser for Stones and Prostate
- . Evaluation & Treatment of Male Erectile Dysfunction Pharmacocavernosometry Venous Ligation Arterial Canalization Penile Implants

Renal Transplantation Programme

The Urology Centre collectively oversee a very successful ongoing "Live Related Donor Renal Transplantation" programme (the first Renal Transplant was made in Oct 1993). This programme offers a relatively affordable package inclusive of donor kidney harvesting and recipient surgery. The Centre thus provides succour to those economically deprived, requiring renal replacement in end stage renal disease. Recently the centre has started "Cadaver Renal Transplantation" with the doctor who is trained from Canada in Cadaver Renal Transplantation.

Infrastructure of Urology & Nephrology Centre

- 23 Computerised Dialysis Machines
- Siemens' Lithostar
- Endoscopes
 - Diagnostic Cysto-ureteroscopes for all age groups
 - Resectoscopes (for Transurethral Resection of Prostate)
